There are few drummers out now, due to the fact that goods are being sold by the retailers and they have not time in the holiday rush to buy.

### RIVER NEWS

River Stages.

Cairo	31.6	1.6	rise
Cincinnati	38.7	2.9	rise
Evansville	32.1	1.5	rise
Florence	5.8	0.7	rise
Johnsonville	14.1	5.1	rise
Louisville	13.9	1.1	rise
Mt. Carmel	15.5	0.2	rise
Nashville	25.9	2.5	rise
Pittsburg	11.0	4.0	fall
St. Louis	6.2	0.3	fall
Mt. Vernon	31.0	1.9	rise
Paducah	28.5	1.9	rise

A stage above 20 feet is expected here from the present rise. The river rose 1.9 in the last 24 hours, the river being at a stage of 28.5. Business at the wharf these last few days before Christmas is frenzied. No more awful calamity could be imagined than for the City of Memphis with its load of a thousand jugs of "booze" to sink, or the failure of the Kentucky to pull out Saturday night with a still larger load of Christmas cheer. In all lines the shipments are heavy this week.

Enough whisky to put all west Tennessee on a protracted jag left on the City of Memphis last night. On account of the Memphis reaching the destinations of the whisky several days before Christmas, fear is expressed that the country swains will not wait, but will start to celebrating scandalously right away. In that event rush duplicate orders are expected to swamp the Kentucky on Saturday night. The City of Memphis received freight until 1 o'clock last night and got away at 2 o'clock for the Tennessee river.

The City of Savannah arrived last night from the Tennessee river with a good trip but few men. The rousters half loaded the steamer here and then walked up the hill. The Savannah was coaling this morning and succeeded in getting a few men to get away for St. Louis. All the rousters who have any money, already have started the holidays.

The Butterforn came in from Nashville with a good trip last night and left at noon for Clarksville.

The Henrietta left today for the Tennessee river after a tow of ties.

The Margaret is expected in today or tomorrow from the Cumberland river. It may be possible to get a crew until after Christmas.

Speaking of big towboat business the Pavana, of the Ayer-Lord fleet one year brought out alone \$25,000 ties.

The Joe Fowler came in late last night from Evansville and left immediately on the return trip. The broken up schedules interfere greatly with the passenger business. The John S. Hopkins came in today from Evansville.

The Chattanooga today is loading with corn over on the Illinois side and probably will get away this evening for Chattanooga.

The Dick Fowler had a rushing business for Cairo this morning.

The Sallito probably will arrive early tomorrow morning from St. Louis.

The Georgia Lee will be due up tonight from Memphis for Cincinnati.

The Kentucky will arrive late tonight or early in the morning from the Tennessee river.

Considerable excitement was caused on the river front this morning when the steamer John A. Patton, just completed at Howard's shipyard, blew out a steam pipe when crossing the river to this city, preparatory to going south, and for a time it looked as if she would drift over the falls. The accident occurred when the boat was opposite the foot of Fourth street. She had drifted as far down as the foot of Ninth street, when a life-saving crew went to the rescue and brought her safely to shore. There was no one on board, except the crew. The Patton made her trial trip Monday. It belongs to the Tennessee River Navigation company and is one of the handiest passenger boats built at Howard's in several years. The boat will probably be taken back to Howard's for repairs.

Official Forecasts.

The Ohio at Evansville and Mt. Vernon will continue rising during the next 2 days. At Paducah and Cairo will continue rising during the next 4 days. The maximum stage at Evansville will probably approximate 33 or 34 feet, and at Cairo 34 or 35 feet.

The Tennessee from Florence to Johnsonville no material change during the next 24 hours.

The Mississippi from Chester to slightly above Cairo will continue falling.

The Wabash at Mt. Carmel will commence falling today.
